ZEVA Meeting, Ljubljana, september 2017

MEMBERSHIP

The Republic of Srpska Medical Association

Total number of registered members: 4034

Active members: 3685

1. Violence against physicians

- Violence against physicians is happening in our country,
- Annually 2-3 cases occur (2015: 3; 2016: 2; 2017: 2)
- According to our laws, a doctor in the workplace is not an official person (like a police officer, judge, etc.) and absolutely is not protected.
- After such a incidents, the RSMA usually issues a official statement, condemning the violence.

2. Specialisation

- Specializations are under the jurisdiction of the Ministry of Health and practically the RSMA has no influence on them.
- Ministry of Health issues regulations of specialisations.
- Medical Faculty is in charge for the implementation of specialisations.
-

2. Specialisation

- It is not possible under our national regulations for medical doctors to achieve and practice independently certain competences which are not included within their belonging specialty curriculum.
- Doctors can not be licenced for practice of certain new medical competences and skills which are not present in any specialist program.

3. Licencing and CME

- Credit based system
- Mandatory
- The Physicians have to receive 60 credits per 5 years, respectively
- Revalidation after 5 years
- Sanctions (in case of failure to complete required credits, formal questioning of a physician's knowledge in a particular subject)

CME

CME under RSMA (...chamber) until jun 28th 2016.

CME under Ministry of Health since jun 28th 2016

(“Minister`s advisory council”)

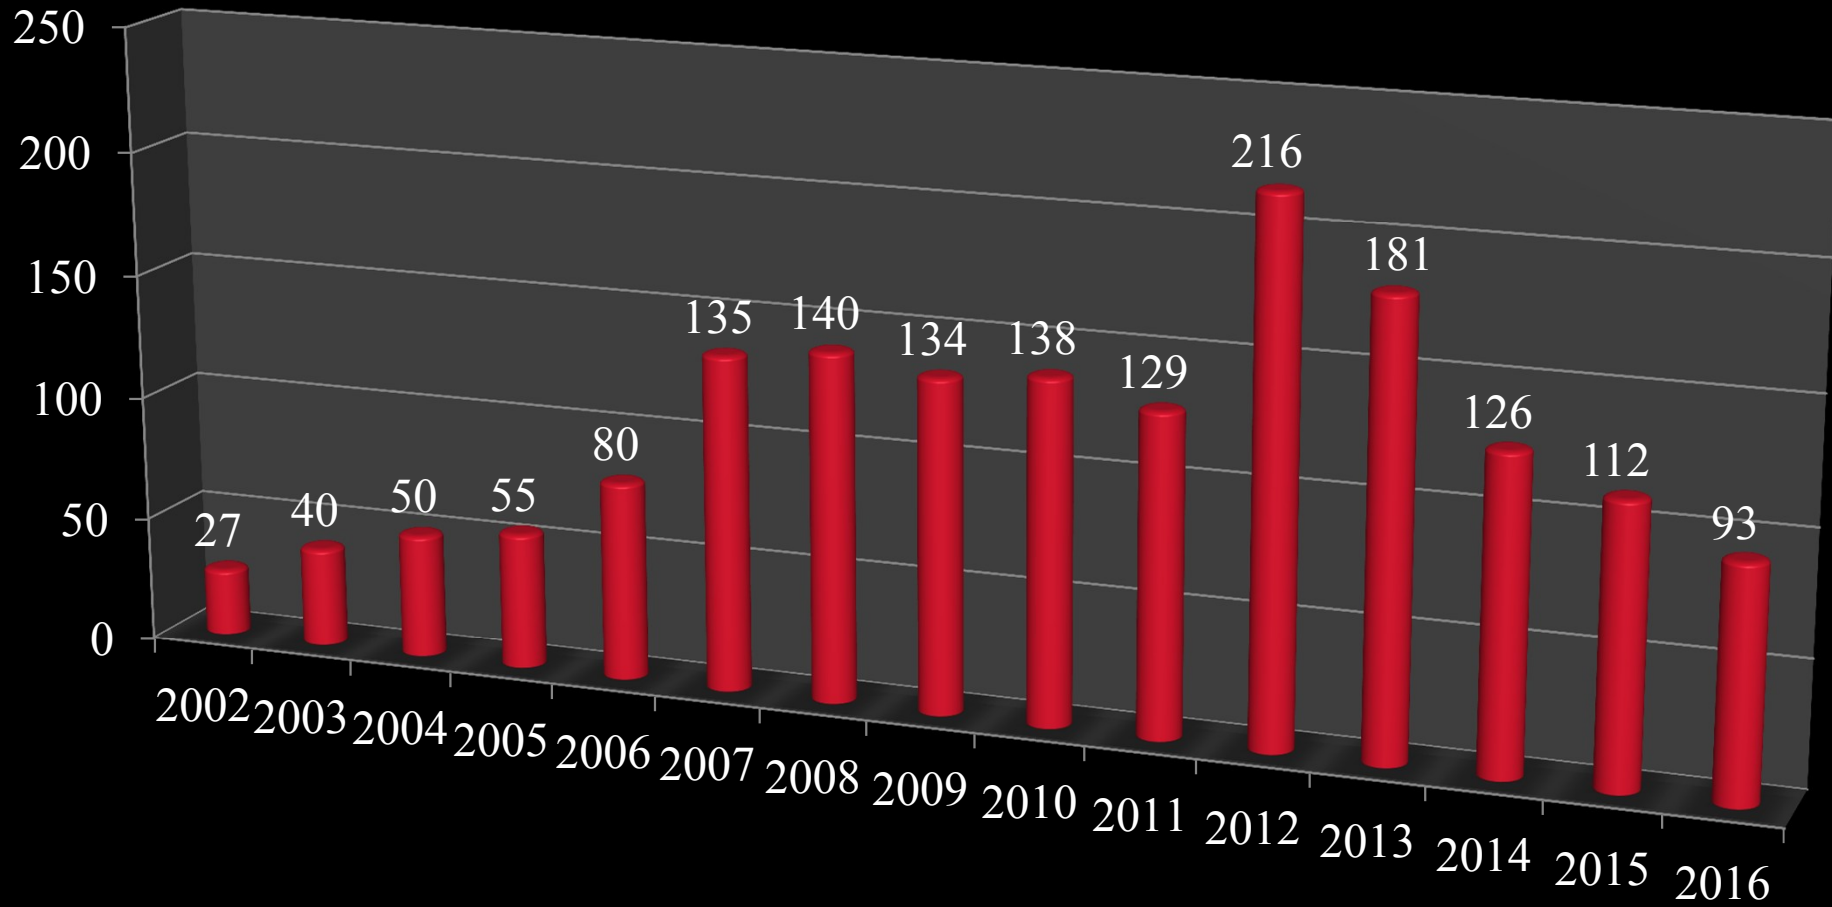

CME under CHAMBER

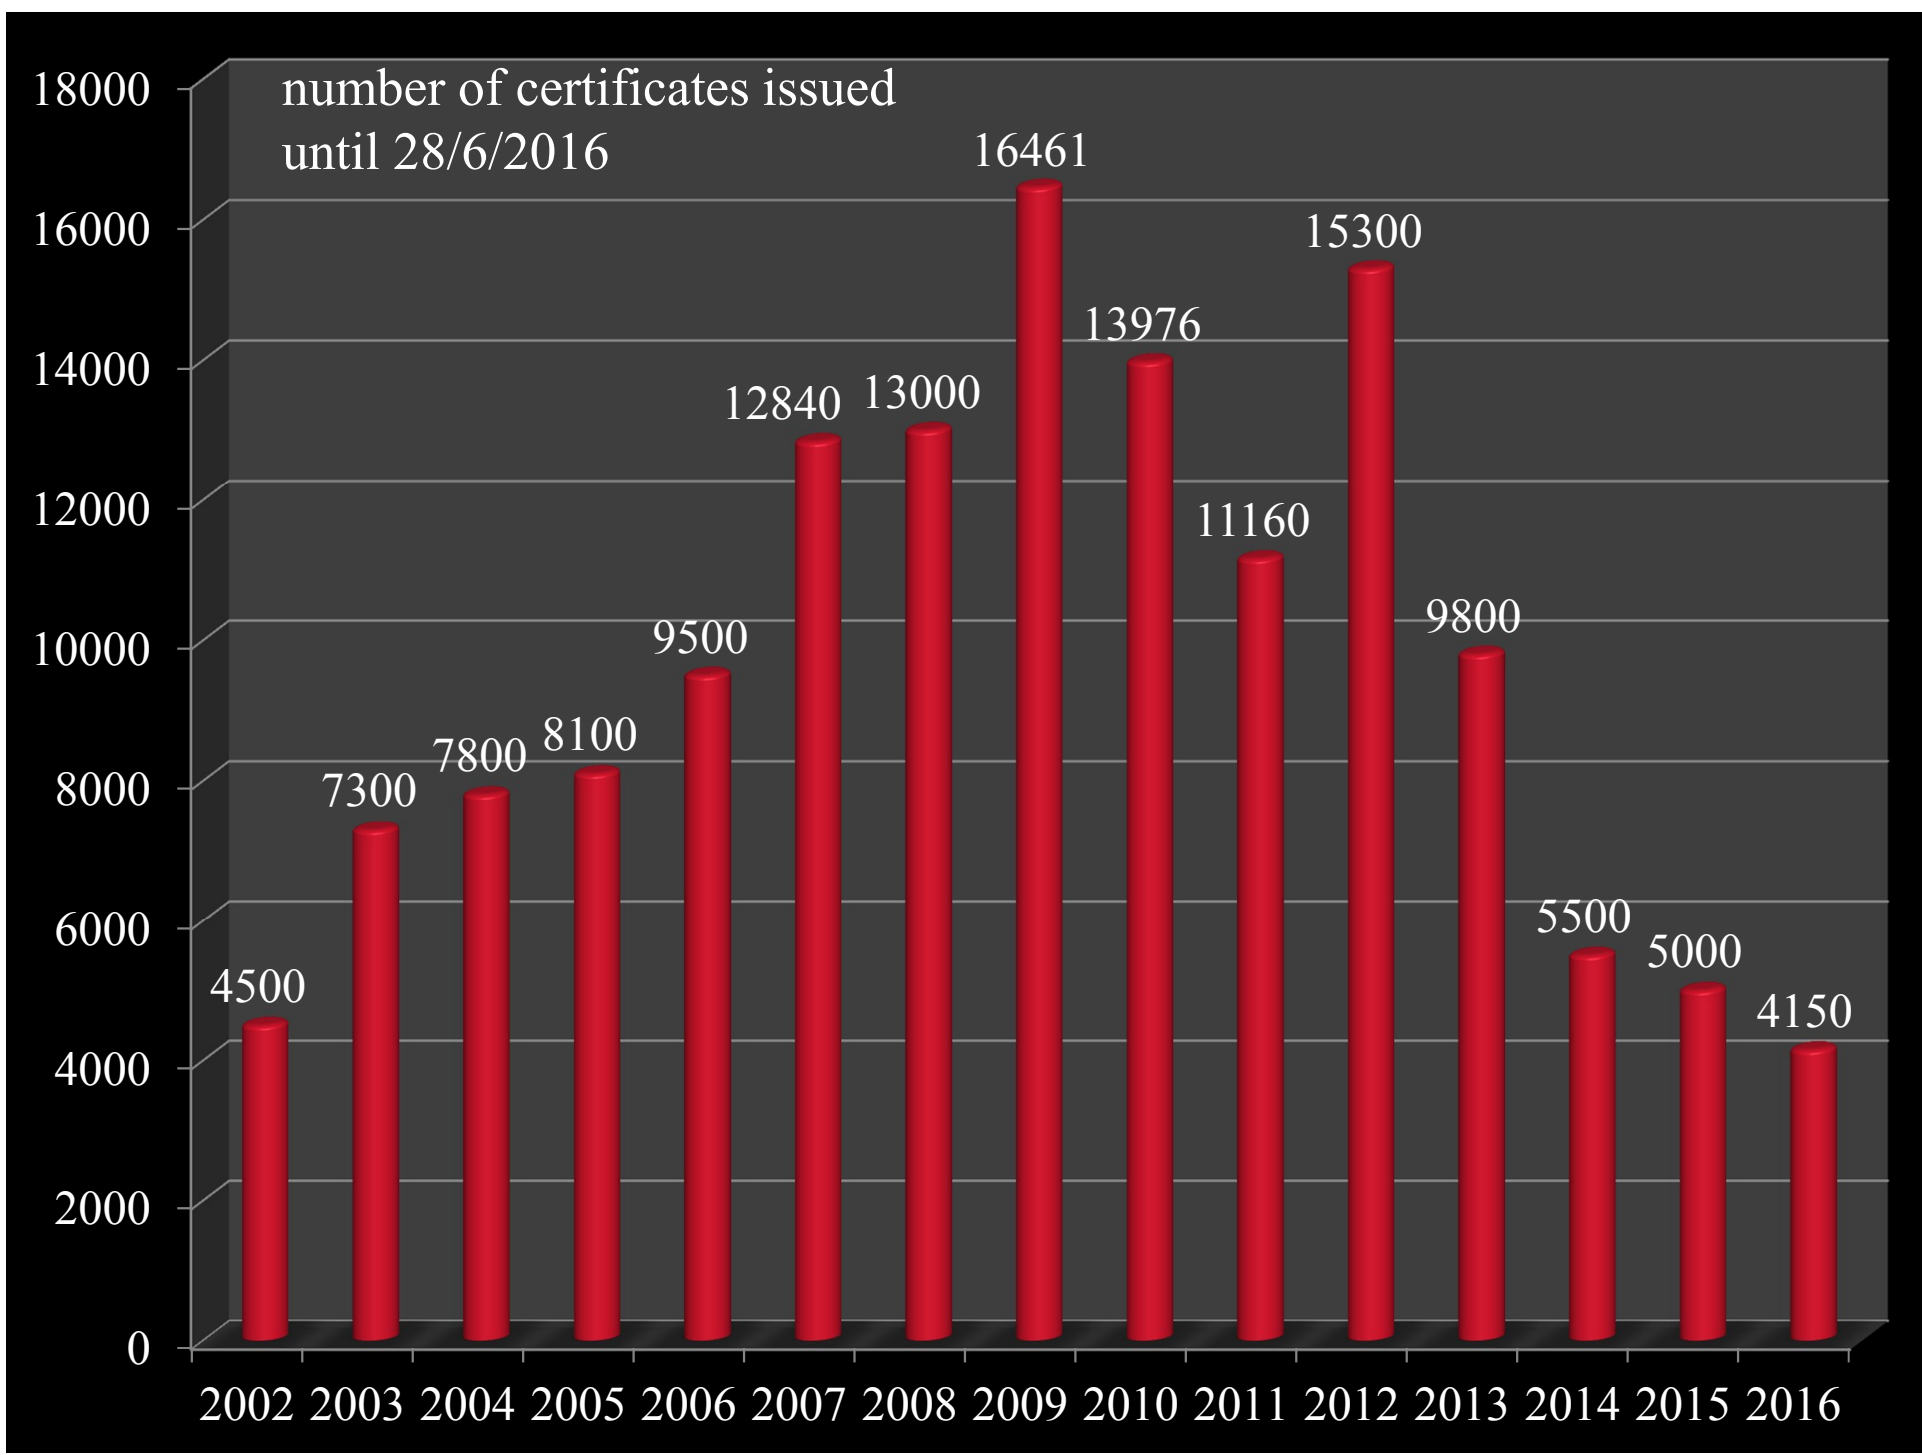

- 2001 : REGISTRATION OF MEMBERS
- 2002: BEGINNING OF CME (COMMISSION OF CME)
- 2003: CENTRE FOR ACREDITATION OF CME
- ACCREDITATION OF LECTURERS
- ACCREDITATION OF CME ACTIVITIES

Continual medical education RESULTS Under Chamber

number of educations until 28/6/2016

Licencing and CME under RSMA

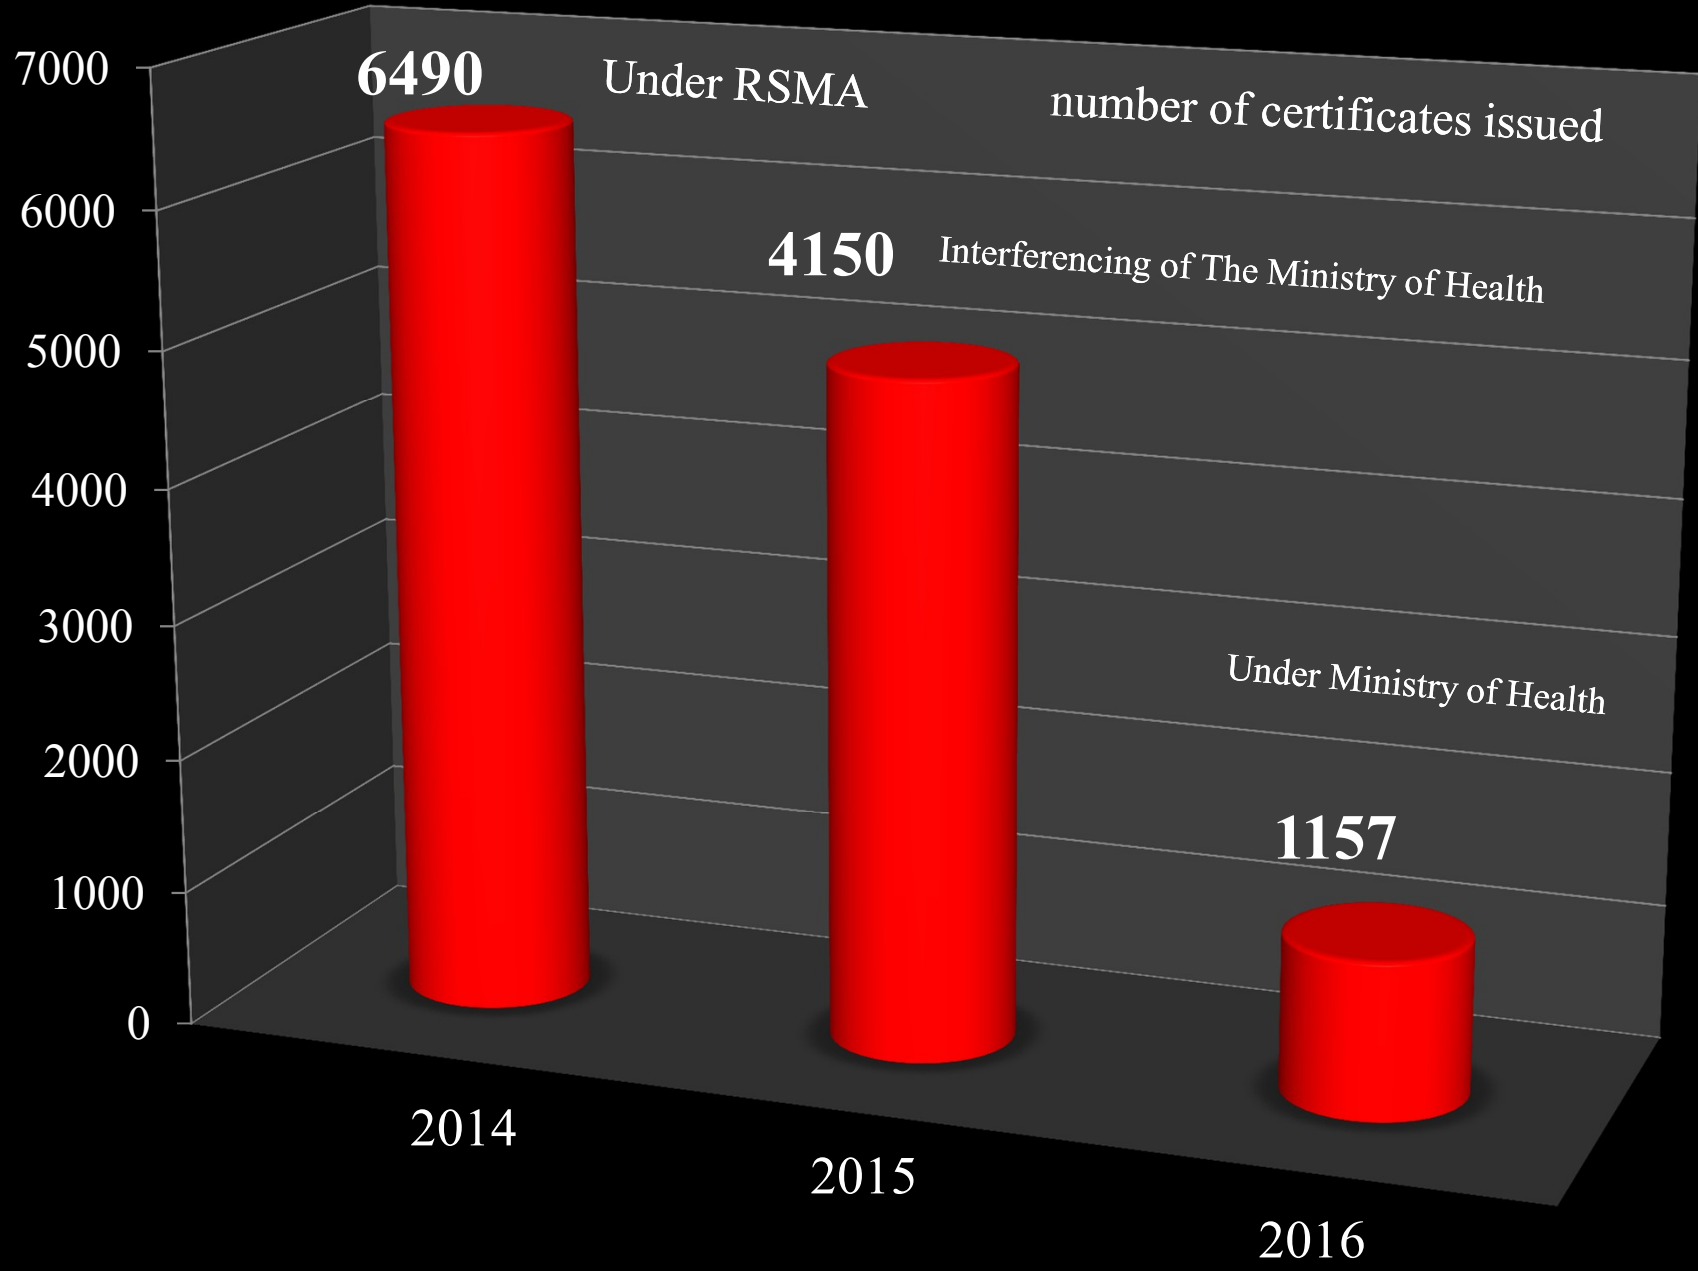

Total number of educations: 1.656

Total number of certificates issued: 152.069

CME under Ministry of Health since 28/6/2016

- Since last year CME accreditation has been taken over by the Ministry of Health through the “Minister`s advisory council”.
- This body, which by its composition is not competent for CME accreditation, does this for all three chambers.
- As a consequence of that many problems occur.
- Problems are best shown by illustrated chart for the first 6 months of the implementation of the new Policy of the Ministry of Health.

4. Treatment protocols

- Diagnostic and treatment protocols are under the jurisdiction of healthcare institutions (Hospitals, health centers, etc.)
- Each health institution, by itself, establish protocols, which are approved by the management of that institution, and doctors are obliged to implement and adhere to them.
- There is no protocol supervision neither an any institution at the state level which do monitoring the implementation of the protocol.
- Specialist associations are in charge for the clinical guidebooks.
